

BADGER

By Smartapps

The smarter way to analyze Business Central data with Power BI

Tired of building data models and writing DAX?

With Badger, you get insights from your data on day one.

Why Badger?

Start fast

Install Badger, download ready-made reports, and connect to Business Central.

Skip the technical setup

All links, measures, and dimensions are pre-built for your BC data.

Visualize your way

Use built-in templates or create your own KPIs and dashboards.

Scale and share easily

Publish to Power BI, share with your team, and keep your custom reports.

Key features

Connect **Business Central** to **Power BI** instantly.

Use **ready-to-download sales** and **finance reports**.

Create **custom account groups** for tailored analysis.

Add **extra fields**, including custom ones, for **deeper insights**.

Map and **sync data** for **flexible reporting**.

Stay **compatible** with the latest Business Central releases.
