

# PARROT

By Smartapps

The smarter way to manage recurring invoices in Business Central

**Still relying on manual processes to invoice the right amount at the right time?**

With Parrot you don't have to.

## Why Parrot?

### **Automate your recurring billing**

Parrot creates and sends invoices for you.

### **Stay on top of revenue streams**

See upcoming charges and renewals instantly.

### **Simplify pricing & discounts**

Use built-in price lists for accurate billing.

### **Stay compliant & reduce risk**

Standardize invoices and track revenue easily.

## Key features

**Automate billing** for subscriptions and rentals.

Choose **monthly, quarterly, or annual** invoice cycles.

Set **invoice timing** for each contract item.

Combine **multiple contracts** on **one invoice**.

**Spread revenue** across periods **automatically**.

Add **usage-based** or **one-off items** for **flexible invoicing**.
